### ***Specification***

Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "**means**" (lines 2, 3, 5, 7, 10, 12) and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

### ***Claim Objections***

Claims 1, 5, 6 are objected to because of the following informalities: it is suggested to change "a" (claim 1, line 7) to - -an- -; "fist" (claim 1, line 19) to - -first- - and "raveling" (claims 5 and 6, lines 3) to - -traveling- -. Appropriate correction is required.

### ***Allowable Subject Matter***

Claims 7 and 8 are allowed.

***Conclusion***

This application is in condition for allowance except for the following formal matters: as addressed above with regard to the abstract and the claim objection.

The art of record fail to teach a parking assist apparatus for a vehicle comprising, among other limitations, an initial traveling locus deviation calculating means for calculating the deviation amount of the vehicle present position from an initial traveling locus calculating means; a number counting means for counting a number of a new traveling locus calculated after generation of a calculated traveling locus; wherein a parking assist means stops performing the parking assist when the number of the new traveling locus to be generated is equal to or greater than a predetermined value/number.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. USPN 6,929,082 teaches a parking assist apparatus.
